SPECIAL SESSION: From Startup to Scaleup: How to Successfully Navigate the Innovative AI Ecosystem | Part 1
SPECIAL SESSION: From Startup to Scaleup: How to Successfully Navigate the Innovative AI Ecosystem | Part 2

Startup Pitch Session

Hybrid format

Choose sessions that you want to attend live, and enjoy on-demand access to all lectures and discussions after the event.

The most current detailed program is available on the virtual platform, **www.aimedicine.one**.

Presentation slides will be available after the event. Please note that only slides with the author's consent will be published. Copying or distributing the slides without the author's written consent is strictly prohibited.

Ask your question

Don't miss the chance to have your question answered during the Q&A panels with our speakers!
Submit your question via virtual platform, **www.stream.piebm.org**.

Social events

Piotr Pawlak and the Orchestra of the Capital Royal City of Krakow Sinfonietta Cracovia

Thursday, May 7, 2026 (8:15 PM)

ICE Kraków Congress Centre
ul. Marii Konopnickiej 17, 30-302 Kraków

Piotr Pawlak and Sinfonietta Cracovia

The **Opening Ceremony** of the **MIRCIM** and **AIMed** conferences will be graced by a remarkable concert featuring **Piotr Pawlak** and **Sinfonietta Cracovia**. The program brings together masterpieces by Polish composers such as Fryderyk Chopin, Wojciech Kilar, and Mieczysław Karłowicz, offering a compelling journey through the richness of classical tradition and its vibrant contemporary interpretations.

Piotr Pawlak stands out as one of the most exciting pianists of his generation in Poland. An award-winning artist on the international stage, he captivates audiences with performances marked by freshness, technical brilliance, and profound musical sensitivity.

Sinfonietta Cracovia, one of Poland's leading chamber orchestras, is celebrated for its innovative approach to repertoire and dynamic collaborations with outstanding soloists. Under the guidance of its conductor and driven by the passion of its musicians, the ensemble consistently delivers performances of the highest artistic caliber. Set within the elegant space of the ICE Kraków Congress Centre, the collaboration between soloist and orchestra promises an evening of exceptional prestige and artistic excellence.

This event is organized courtesy of the City of Kraków.

Kraków

All conference participants are invited to attend this special concert free of charge.

Virtual platform

www.stream.piebm.org

All lecture times in the program are in CEST (Central European Summer Time, UTC+2).

In-person attendees

Your entry card with a QR code will be sent to the email address you provided during registration.
You are required to present your QR code at the reception desk.
Your entry card will include your login credentials for the virtual platform.
You will have access to all recorded lectures after the event.

Virtual attendees

Your login credentials will be sent to the email address you provided during registration.
Live attendance is NOT required to receive CME credits.
Participants viewing the recordings during the 6 months after the event are entitled to claim their CME credits in the same way as the participants of the live event.

Ask your questions

Don't miss the chance to have your question answered during the Q&A panels with our speakers! Submit your question via the virtual platform in the "Ask a question" section.

On-demand access

After the event all lectures will be available for registered on-site and virtual participants on the virtual platform.
Participants viewing the recordings during the 6 months after the event are entitled to claim their CME credits in the same way as the participants of the live event.

Certificates of attendance

The certificate will be sent as a PDF file to the email address provided during registration.

Free public transport for AIMed participants

All conference participants are entitled to free travel on public transportation, including trams and buses, by simply presenting their conference badge. This service is provided in partnership with Host City Kraków. Your conference badge will include a holographic sticker for validation. Please ensure you carry your badge with you at all times to present during ticket inspections. Enjoy convenient and cost-free travel throughout the conference period.

Kraków is served by an efficient network of trams and buses that run between 5 AM and 11 PM.

To conveniently look up public transport lines, including timetables and fares, see: **jakdojade.pl/krakow**.

For public transportation schedules, see the Municipal Transport Enterprise website: **Timetables**.

Kraków

wide open for meetings

Kraków: when can we expect you?

A business event in a state-of-the-art facility, set in a city boasting over a thousand years of history all around you? The “wow” effect is guaranteed. However, the MICE industry is not only about spectacular settings – it is equally about professional organisation, cutting-edge technology, comfortable accommodation, and, last but not least, a diverse range of leisure activities. Kraków offers all this – and much more.

The former capital of Poland, located in the southern part of the country, successfully combines contemporary challenges with its centuries-old heritage. Seamlessly woven into the historic fabric of the city, its event infrastructure impresses with modern design and functionality. It enables the organisation of a wide variety of events: trade fairs, conferences, congresses, symposia, and business meetings – all delivered to the highest standards.

Venues such as TAURON Arena Kraków, EXPO Kraków International Trade Fair and Congress Centre, CKF_13 Fabryczna Conference Centre, and ICE Kraków Congress Centre are capable of hosting both large-scale events for thousands of participants and more intimate gatherings.

It is ICE Kraków Congress Centre that will host the Annual Congress of the European Society of Gynaecological Endoscopy – one of the most important events dedicated to minimally invasive gynaecological surgery. The congress will bring together approximately 2,000 delegates from across Europe and beyond, including leading clinicians, researchers, and industry experts. In the city, event organisers can rely on the professional support of the Kraków Convention Bureau, which assists in planning and delivering successful events.

The city’s extensive hotel base is another key asset: more than 13,300 rooms across nearly 200 hotels, including a wide selection of boutique properties. Kraków also benefits from convenient air connections to all major European cities. Kraków is a perfect destination for enthusiasts of active leisure and wellness, aficionados of culture and art, as well as food lovers. There is something for everyone here – and the only regret you may have is not staying longer.

We're tackling the world's toughest health challenges

At Johnson & Johnson, we're driving responsible innovation that creates positive impact for patients across the world.

We're honored to support leaders and organizations at MIRCIM and AIMed 2026 for their work in advancing ethical stewardship in healthcare.

Health for all, Hunger for none

HPE

GAIN A COMPETITIVE EDGE IN MEDICINE WITH AI

Artificial intelligence is rapidly transforming the healthcare sector—from diagnostics and treatment to facility management and patient data. It enables faster disease detection, more accurate treatment selection, and the conversion of medical data into concrete clinical decisions.

However, the real advantage comes when AI solutions are implemented in a secure, compliant, and scalable manner across the entire organization. Are you ready to move from pilot projects to the strategic use of AI that tangibly improves treatment outcomes and operational efficiency?

With HPE AI Factory, you can comprehensively implement AI—from infrastructure and medical data management, through analytical models, to their daily use in clinical practice.

Turn your ambitions into better patient care. Unlock the potential of data. Accelerate the advancement of modern medicine with HPE.
